Selected E-Cigarette Logistics Service Providers

Main Routes: Europe & America -Canada- Southeast Asia

Storage Equipment

- Hosto logistics warehousing system software adopts flexible basic data management, coupled with powerful customization functions, to efficiently manage warehouses and lay a solid foundation for enterprises.
- Supports warehouse management functions such as warehousing, inventory, and adjustment.
- The import and export functions of basic data allow you to import basic data into the software through Excel in the early stage of account construction, saving a lot of time.
- The convenient audit function, the report system and the business module are organically combined to facilitate monthly reconciliation.
- Provide accurate and timely inventory at any time, so that your warehouse management can be carried out easily.
- Provide thoughtful and complete after-sales service.
- In addition, the warehouse also provides labeling, pallets, split packaging, assembly supporting facilities, product quality control and other services.

Our company is based on the traditional logistics activities that are carried out on routes and nodes. In this way, we have developed a new delivery network, including but not limited to: cargo collection transportation, trunk transportation, distribution transportation, etc. The information network is combined with all other functional elements in the logistics functional elements, such as packaging, loading and unloading, storage, distribution, distribution, circulation processing, etc. These steps are completed at the node to maximize the time compression to solve customer needs. Delivery network: truck/express delivery.

Customs Clearance Capability

Our company has cooperated with major airlines, and mainly uses DDP/DAP, including customs clearance and door-to-door delivery. Business covers the UK, EU, US, Canada, Indonesia, Philippines, Malaysia and other countries.

Customs clearance capability: DDP DD can be provided.
